

# If I Were A Carpenter

**D**            **C**            **G**                    **D**  
If I.. were a carpenter            and you were a lady,  
**D**                            **C**            **G**                            **D**  
would you marry me anyway?    Would you have my baby?

**D**            **C**            **G**                    **D**  
If a tinker were my trade            would you still love me?

**D**            **C**            **G**                    **D**  
Carrying the pots I made            following behind me.

(Chorus)

**C**                            **D**            **G**                    **D**  
Save my love through loneliness, Save my love for sorrow,

**D**                            **C**            **G**                            **D**  
I'm given you my ownliness,    Come give your tomorrow.  
(Verse 2)

**D**                            **C**            **G**                            **D**  
If I worked my hands in wood,    Would you still love me?

**D**                            **C**            **G**                            **D**  
Answer me babe, "Yes I would,    I'll put you above me."

**D**            **C**            **G**                            **D**  
If I were a miller,            at a mill wheel grinding,  
**D**                            **C**            **G**                            **D**  
would you miss your colored blouse,    your soft shoe shining?

(Chorus)

**C**                            **D**            **G**                            **D**  
Save my love through loneliness, Save my love for sorrow,

**D**                            **C**            **G**                            **D**  
I'm given you my ownliness,    Come give your tomorrow.  
(Verse 3)

**D**            **C**            **G**                            **D**  
If I.. were a carpenter            and you were a lady,  
**D**                            **C**            **G**                            **D**  
would you marry me anyway?    Would you have my baby?

**D**            **C**            **G**                            **D**  
would you marry me anyway?    Would you have my baby?

(Outro) D C G D
